

**Trustee for debt and note issues**

We will act as trustee of debt issues for private and public companies, including state owned enterprises, encompassing secured and unsecured debt, security agent under security sharing deeds, bonds, convertible and capital note issues and subordinated debt.

Trustee for Unit Trusts

We will act as trustee for unit holders in both listed and unlisted unit trusts and will carry out our function by holding the trust investments and monitoring compliance by the fund manager.

Trustee for superannuation schemes

We act as an independent trustee for private employer and publicly available superannuation schemes.

Trustee for KiwiSaver schemes

We will act as the independent trustee for KiwiSaver schemes.

Trustee for securitisation roles

We will act as trustee or security trustee for securitisation programmes. This may involve the trustee holding the assets for the programme or holding a charge over the assets of a special purpose vehicle. We will also provide Paying Agent and Registry Services in connection with these programmes and we offer Trust Manager and stand-by review services.

Trans-Tasman services

Our close relationship with the trustee companies in Australia allows us to offer our clients efficient and expedient Trans-Tasman services for those companies wishing to issue securities in both countries.

International Trusts

We act as trustee for New Zealand based trusts which usually hold International Assets for foreign settlors and foreign beneficiaries.

Administration Service

We can handle any or all back office services required. Services include registry, authority, pricing, custody and administration. Please note that our accounting and pricing services are handled by MMc Limited, an associate company of Guardian Trust.

Other corporate trustee services

We will also act as custodian, service process agent, escrow agent, trustee of staff share schemes and holder of guarantees as well as providing a range of cost effective custodial and related services.
